

Teamflect Just Got Better – Empower Your Workforce Like Never Before!

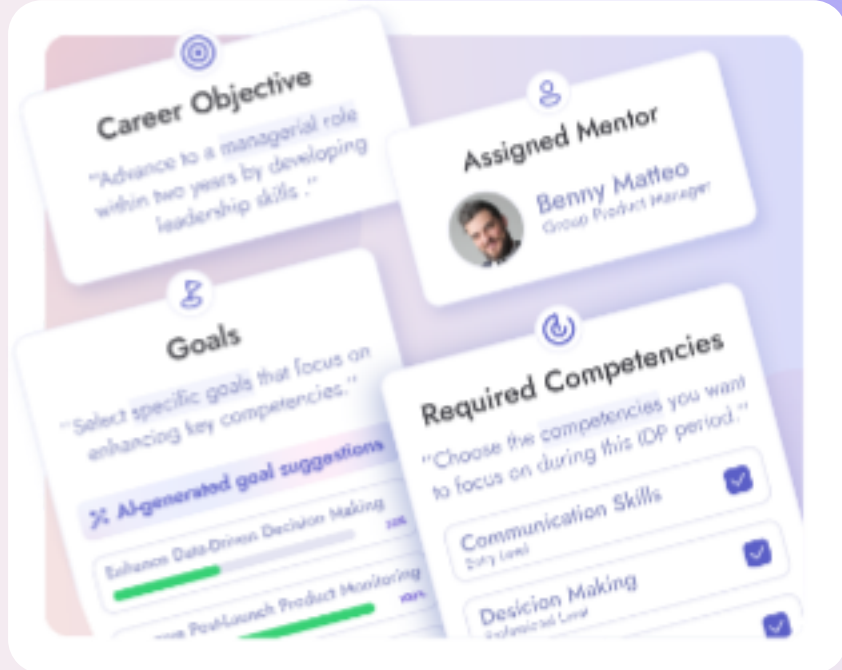

Teamflect Professional Plan introduces powerful new features to elevate your workforce where you'll enhance team collaboration, optimize talent management, and drive greater organizational success.

- Employee Intranet
- Internal Job Board
- Voice of Employee
- Individual Development Plan
- Succession Planning
- HRIS

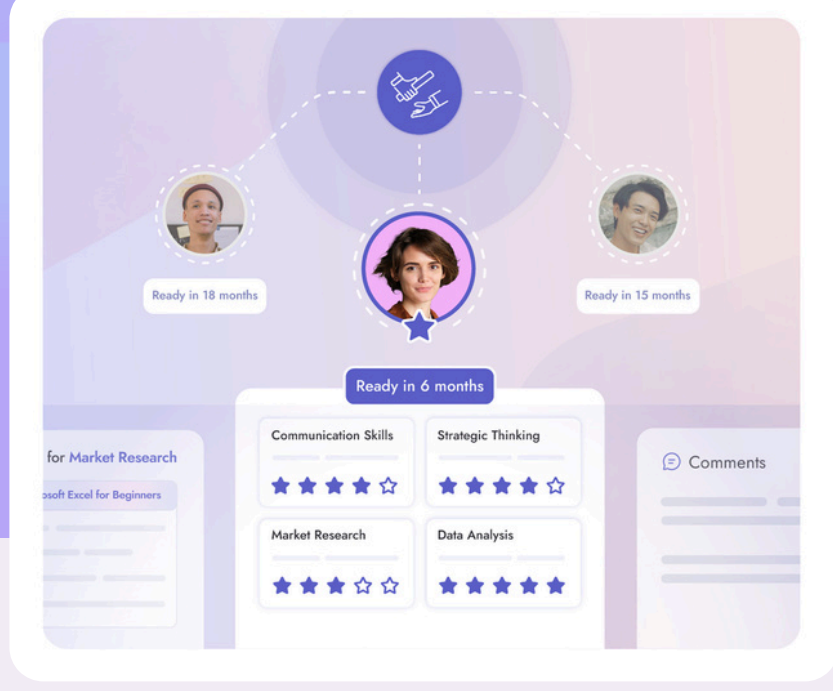

Individual Development Plan (IDP)

IDP helps employees take control of their growth with structured career paths and personalized development plans. By setting clear goals, tracking progress, and accessing tailored learning opportunities like training, certifications, and mentorship, employees can advance their careers with confidence. Admins can monitor development in real time, ensuring alignment with both individual aspirations and company objectives.

Succession Planning

Ensure business continuity by identifying and preparing future leaders. Succession Planning feature helps map out career paths, assess competencies, and select the right successors for key roles. By leveraging performance data and talent assessments, organizations can build a strong leadership pipeline, minimize risks, and ensure a seamless transition when leadership changes occur.

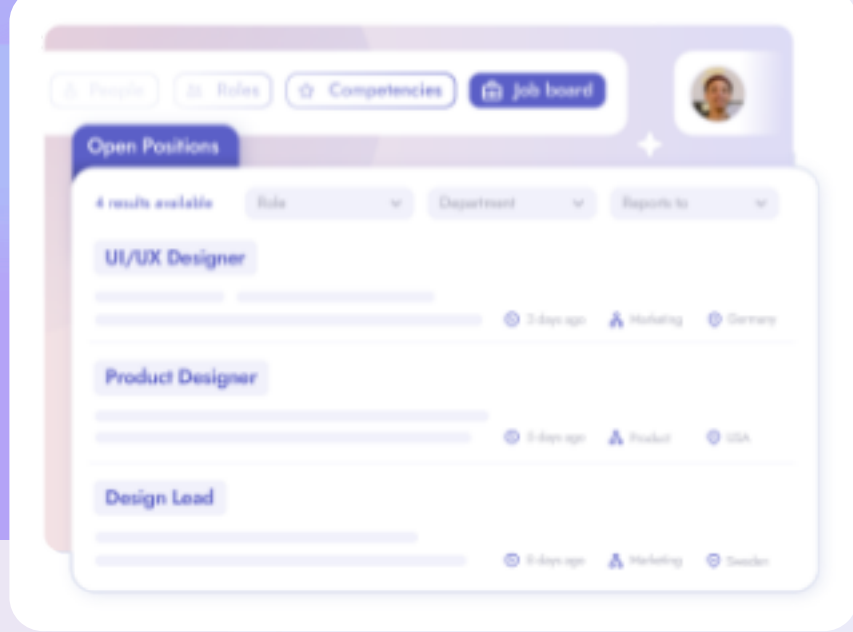

Employee Intranet

Keep your workforce informed, engaged, and connected with Teamflect's Employee Intranet. Share company updates, centralize resources, and enhance team collaboration—all in one place. With a company newsfeed, unified search, and customizable widgets, employees can easily access the information they need, fostering a more connected and efficient workplace.

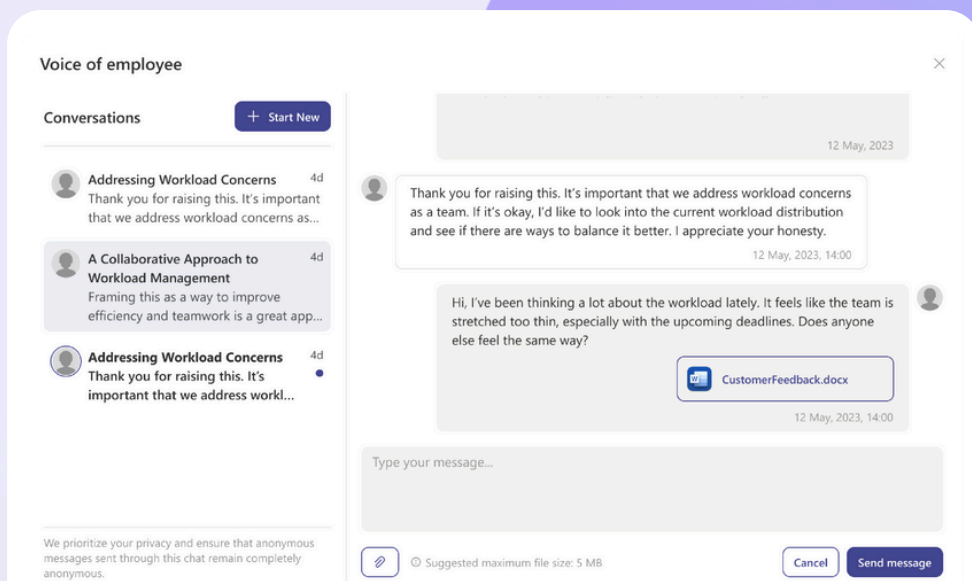

Internal Job Board

Internal Job Board enables employees to explore and apply for internal career opportunities, promoting mobility and talent retention. By listing open positions with relevant competencies and details, it helps employees grow within the organization.

Voice of Employee

The Voice of Employee feature allows employees to share suggestions, concerns, and feedback, either anonymously or with their name. It fosters open communication and a culture of trust, ensuring employees' voices are heard and valued. This tool encourages continuous improvement by providing a safe space for honest and constructive input.

HRIS Integration

Teamflect Professional integrates with 200+ HRIS platforms including: SAP Success Factors, ADP, Bamboo HR, HiBob, Workday, UKG and more..

A tool that employees love - with an affordable price
