The Only Performance Management Software Built for Microsoft Teams

Teamflect provides HR leaders with an easy-to-use tool that allows them to lead their organizations effectively through;

- Effective and structured 1-on-1 meetings
- Easy feedback and recognition sharing
- Performance reviews and development plans
- Individual and group tasks
- A well-integrated Goal & OKR module

Why Teamflect?

1 Easy-to-use

Teamflect provides a native Teams application experience to end-users. Your users can get started right away without a need for extensive training.

2 Integrated

Teamflect is well integrated into Microsoft Teams & Outlook and supports single sign-on, so there is no need for a separate username and password.

3 Insightful

We help HR teams make data-driven decisions with our rich analytics dashboards powered by Microsoft Power BI.

4 Customizable

No one understands your needs better than you do. You can customize our software to fit your organization's needs and still make the most of all our features.
